

POLICY GOVERNANCE

- The board works as a whole, providing a clear and concise direction to the superintendent.
- The board charges the superintendent to focus every staff member and all resources toward a single goal around student achievement.
- The superintendent is responsible for the implementations of programs, projects and practices that will best support a high quality education.

There are number of components to a policy governance model including, ends policies, means, executive limitations, board/superintendent relations, process, indicators, community linkages and monitoring reports. Currently the board is developing ends policies to identify goals of the district and defining the desired outcomes. The board is also working to schedule community linkages to help in the development of the ends policies.
