2018 Fall Fun

I'm bored! There's nothing to do! We can't even go outside! We have all heard these words before and it makes for a long day and a longer week. Here are a few new ways to get through the days and weeks ahead. *Most of the contents included here were shared this summer with teachers in a doc named "2018 Summer Fun Summary for Teachers."*

Go outside and enjoy all Wisconsin has to offer! For places to go and things to do, click **here** for suggestions. These links take users away from the Bristol School District so call ahead or check online as details may change over time. *This list is from the summer. Some offerings are seasonal and may not be available in the fall or winter or hours of operation may not be accurate.*

SITE OF THE WEEK

1. **PlayKidsGames.com** There are many categories with multiple games in each one. Pick a level and build your memory by playing **Musical Memory Turtle**.
2. **DrawandGuess** This is a classic sketch and guess game where users are presented with a sketch and have to guess what it is by typing in the correct letters. Once on the site, start by clicking on "quick guess."
3. **Discovery Kids Games** Quizzes, games, activities, and puzzles will keep everyone busy while they are learning.
4. **MakeBeliefsComix.com** Read the Common Sense Education **review**. Directions are available **here**.
5. **Science Toy Maker** "a resource for inspired teachers, parents, teenagers, kids, home schoolers, science fair participants and citizen scientists everywhere." *Parents/Teachers-Activities may not be appropriate for all age levels. Some activities require adult interaction and/or supervision.
6. **KidZone with the New York Philharmonic**. Learn about instruments, composers, and concerts.
7. **PBS Coloring Games** Who doesn't like to color? Come along and pick a game to pass the time away coloring by yourself or with a friend.
8. **ActivityVillage.co.uk** Contains a number of ideas for dice games. Play alone or with a partner. There are plenty of activities to choose from.
9. **Dance Mat Typing** That's right, you can work your way through the levels and practice your keyboarding. Sit up straight, feet on the floor, fingers on the home row and ready, set, begin!

2018 Fall Fun

BUILD, MAKE, AND CRAFT

1. **15 Fun Stem and STEAM Activities for Kids** from Family Fun magazine. Printable templates for projects are available here. *Parents/teachers-Check activities first to be sure they are appropriate and safe.
