Things to Consider when Determining which School my Child should Attend:

- How old is your child?
- How permanent is your current living arrangement?
Do you plan to move back close to the school of origin or do you think you'll stay near your current living arrangement?
- Is your child attached to his/her school of origin?
An older child who feels very connected to his/her school of origin and/or is about to graduate might have a harder time changing schools.
- How anxious is your child because you have had to move? Would changing schools be overwhelming?
- Would changing schools cause your child to fall behind in school and receive bad grades?
- Is this a good time of year for your child to change schools, such as at the end of a semester or school year, after testing, or after an event that is important to your child?
- How much time would your child have to spend going back and forth to the school of origin? a long ride might have a negative impact on your child's schoolwork.
- Are there safety issues to think about in choosing which school your child should attend?

Decisions regarding which school a child should attend in the case of homelessness should be made by you and your child, but please feel free to consult with school staff if you are seeking additional input.
